## Flu & COVID-19 vaccines available

***Is it safe to get a flu vaccine and a COVID-19 vaccine at the same time?***

*Yes, you can get a COVID-19 vaccine and a flu vaccine at the same time if you are eligible, and the timing coincides. Even though both vaccines can be given at the same visit, people should follow the recommended schedule for either vaccine: If you haven't gotten your currently recommended doses of COVID-19 vaccine, get a COVID-19 vaccine as soon as you can, and ideally get a flu vaccine by the end of October. To learn more, [click here](#).*

***Call today to schedule your appointment.***

***(401) 312-9831***
