Celebrating growth and community commitment The 1145 Main Street expansion

September 4th marked a significant milestone in our organization's growth and commitment to the well-being of our community as we celebrated the official ribbon cutting at our 1145 Main Street location, 2nd level. This expansion has resulted in the creation of additional clinical rooms and patient areas where we will be able to serve more individuals and families. None of this would have been possible without the unwavering support of the Champlin Foundation. Their generous grant provided the crucial funding necessary to transform our vision into reality. Thank you for believing in our mission and investing in the health and future of our community.
